

### Aircraft Compatibility

- Various fighter jets: F-18/16/15, Su-30/27/25/24, Mirage 2000, Mig-29, Eurofighter, Gripen, Kfir and more
- Single-seat A/C capability
- Various methods A/C to weapon interface: stand-alone or via avionic system
- Supports video transmission on RS-170 interface and wireless communication with a mobile device inside the cockpit.

### Technical Specifications:

Weight: ~570 Kg

Length: ~4.7 m

Diameter: 306 mm

Guidance: GPS/INS with Anti-Jam capabilities

Warhead: Blast/Frag/GP

### Launching

Altitude : (Low) 3 - 40 Kft

Velocity: 0.8- 0.95 Mach

Pitch at launch: 0-35°

### Impact

Range: 150Km

Accuracy: 10 meter CEP

Impact velocity: 350 - 550m/sec

Angle of impact: up to 90°

## RAMPAGE

A new generation of air-to-ground precise missile  
A high-performance, cost effective, leading-edge system

## RAMPAGE

Long-Range Precise Supersonic Missile

The best technologies of IMI Systems and IAI yield the innovative RAMPAGE solution

- New long range Air-to-Ground precision strike missile
- Features high-survivability and operational flexibility
- Enables a salvo strike against high-value targets
- Missile includes solid booster, general purpose warhead and GPS/INS guidance navigation system with robust Anti-Jam capabilities.
- Fits a variety of western and eastern aircraft (A/C)

**IMI SYSTEMS**  
MEETING YOUR TARGETS

# Maximum Mission Effectiveness

## Main Operational Capabilities

- Active during day, night and adverse weather conditions
- Long Range, autonomous, stand-off weapon
- Precise target hit
- Simple operation of fire-and-forget
- Fast response
- High-survivability - supersonic speed

## Typical Targets

- Fixed and Time Critical Targets
- Air force bases, Control towers, Squadron buildings
- Munitions storage, Bunkers.
- Air defense sites
- Logistic centers
- Communication infrastructures
- Infrastructure facilities (e.g. power plants, ports, oil fields, etc)
